

COURSE OVERVIEW

This Prep Course provides the foundations and knowledge needed for the LEED AP O+M (Operations & Maintenance) exam.

The LEED O+M Rating System aims to reduce externalities by integrating building technologies. Primarily, the rating system requires exceeding energy and water performance standards from minimum code.

LEED GA is a prerequisite to all LEED AP certifications.

CERTIFYING BODY

PARTICIPANT PROFILES

- Facility managers and engineers
- Building operators
- Operations and maintenance managers and technicians
- Electrical and HVAC professionals and technicians
